

Stay With Me (feat. Jeremy Zucker)

[ayokay](#)

Slwoly it's showing
My heart is overflowing You never left this town
But I could barely breathe
I feel like it was yesterday
When you told me not to leave
And though it's been a while
I still feel alone
I'm coming back next Saturday
I wonder if you're home So stay with me, stay with me
Why don't just vacay with me
Run away for the day with me
Honest, that's okat with me
We ain't got no place to be
Hotel rooms and memories
Honest, you should stay
Wandering with you by my side
Stay, stay with me, stay with me
Just stay, wandering what we left behind
Stay, stay with me, stay with me, yeah Stay, just stay
Stay with me, stay with me, yeah Lately it's fading
There's no way we'll make it Did we make it seem
More than what it was?
You said you wanna leave this town
But no one ever does
The summer's turning cold
We bent until we broke
You're sick of writing letters
So you started letting go
So stay with me, stay with me
Why don't just vacay with me
Run away for the day with me
Honest, that's okay with me
Just stay with me, stay with me
We ain't go no place to be
Hotel rooms and memories
Honest, you should stay Wandering with you by my side
Stay, stay with me, stay with me
Just stay, wondering what we left behind
Stay, stay with me, stay with me, yeah Stay so stay with me, stay with me
Why don't just vacay with me
Stay run away for the day with me
Honest, that's okay with me

Stay just stay with me, stay with me
We ain't got no place to be
Stay hotel rooms and memories
Honest, you should stay with me, yeah
