

# For the Cool In You

## Babyface

This is for the cool in you, yeah  
WooHere we go round and round and round  
And back and forth you know  
Everybody goes through it sometime  
And that's just the way it flows  
So we go up and down and up  
And in and out the door  
Even though you know you've been through it beforeFor every argument that we've  
experienced, yeah  
It's nice to know that you've remained composed  
And I wanna thank you, for the chill in you  
Especially for you being so cool  
This is for the cool in you  
Cool in you, cool in  
This is for the chill in you  
Cool in you, cool, cool, cool, cool  
This is for you cool in you  
Cool in you, cool in  
This for the chill in you  
Cool in you, cool, cool, cool, coolLooking on back at all the changes  
That I put you through  
Any other girl in your position  
Show snuff would've been through  
Thinkin' about how you made it easy  
Always there for me  
Never once did you turn your back and leave  
For every tear you've cried, I've cried a thousand times  
Never once did I want you to hurt inside  
I wanna thank you, for the chill in you  
Especially for you being so coolI think this is for the cool in you  
Cool in you, cool in  
I said "This is for the chill in you"  
Cool in you, cool, cool, cool, cool  
I said "This is for you cool in you"  
Cool in you, cool in  
I said "This is for the chill in you"  
Cool in you, cool, cool, cool, coolFor every tear you've cried, I've cried a thousand times  
Never once did I want you to hurt inside  
I wanna thank you, for the chill in you  
Especially for you being so coolThis is for the cool in you
