

# Rain Song

## Cold

When it rains I don't mind  
Let me stand here all night  
Did she take her own life  
Let me know she's alright And every time it rains  
I feel her holding me  
And every time it rains  
Are the angels crying? I'll stay strong, I'll be fine  
Carry on with my life  
I still stare at the sky  
Pray for rain, all the time Why'd you run? Did you hide?  
Why'd you leave, no goodbye?  
When the clouds take the sky  
Does a storm give you life?  
And every time it rains  
I feel her holding me  
And every time it rains  
Are the angels crying? And every time it rains  
I feel her holding me  
And every time it rains  
All the angels cry for me I'll never be the same  
I'll never be the same  
Be the same  
Be the same And every time it rains  
I feel her holding me  
And every time it rains  
Are the angels crying?  
And every time it rains  
I feel her holding me  
And every time it rains  
Are the angels crying?
