

# Ball Drop (feat. French Montana)

## Fabulous

Well in juts about 15 seconds from now, it'll be 1990. We're gathered down below as we say  
goodbye to 1989. The ball is moving, the crowd sees it, you can hear 'em. Oh can you ever  
heard 'em. They know when it hits the bottom it'll be 1990, goodbye to the 80's

Happy new year!Whoa whoa whoa

(Haan

Change is good for everybody)

Montana)

(Haan)When that hate don't work they start telling lies

Baby work, go on bust it wide

It's that new money, let the drugs dry

I cut my bitch off when the ball drop

Haan

(Whoa whoa whoa)

(Whoa whoa whoa)

Haan

(Whoa whoa whoa)

I just don't know whyHating hoes ain't happy

And happy hoes ain't hatin'

Better check the situation

I could fix your situation

Whoa whoa whoa

I cut them bitches off when the ball drop

New money, new year, then the call dropped

(New money, new year, let them drugs drop

Cut them niggas off when the ball drop

Cause them real niggas ain't [?]

And them hatin' niggas ain't real

And baby I could help your situation

No top smokin' medication)

This the new year resolution

We gotta be the winners cause the rest is losin'

I told em get money, that's the best solution

When you do, wear your rocket like you rest in Houston

When niggas throw my style I ain't stressed to boostin'

It's time to make more money, less excuses

My old bitch on death row, it's time for execution

My new bitch is bad ass, she the best since BoosieHaan

 Cut them niggas off when the ball drops  
 Young boy, hot head in the soft top  
 Cause when them shots ain't ringin' you can't call shots  
 Mix some white and brown on the corner strap  
 Might be the Mike Brown, where you rollin' at  
 [?] hundred on the Lincoln  
 3 quarter [?] blew the tank off [?]  
 Niggas scared to play it like Richard Mellor  
 I hope I never Tom Heller, die  
 Scramble like a gold fiend (dope fiend)  
 Keep your head up like your nose bleedin'  
 But right here got 30 ounce left on  
 On that left lane nigga with a bitch form  
 I just don't know why Haan
