

# Vegas Confessions

Jamie Foxx

All that she want, to see the bright lights in Vegas  
Smoke 'til she's painless, she asked and I gave it  
How can I deny? So I passed her a light  
She's trapped in her mind, until she opened her eyes, eyes and recognise a real nigga  
She was a drug, I'm rolling her up  
Catching a buzz, off of her love  
So many options, shawty got me sprung, body hot Bunsen  
Girl make me go numbBaby your body leaves me all hungover  
Take my breath away, not a word or a verb  
What happens here stays here  
Out in Vegas yes  
All that she want, was to make love in Paris  
Take her right back to Vegas, and go half on a baby  
How can I deny? So I passed her a light  
She's trapped in her mind, until she opened her eyes, eyes and recognise a real nigga  
Out where to start, drive the fancy cars, live the fast life, name in bright lights, name in bright  
lights  
Take a gamble, what do you want? Something particular  
Sip of Ciroc making you hot, shaking the atmosphere, yeah  
Big as a dance floor, let her know my flow, oh she wants the bright lightsBaby your body  
leaves me all hungover  
Take my breath away, not a word or a verb  
What happens here stays here  
Out in Vegas yes  
All that she want, to see the bright lights in Vegas  
Smoke 'til she's painless, she asked and I gave it  
How can I deny? So I passed her a light  
She's trapped in her mind, until she opened her eyes, eyes and recognise a real nigga
