

# Rhythm from a Red Car

## Hardline

Hit like lightnin', and my head started spinnin' around  
Caught in a shuffle on the corner of lost and found Well the way that she drove by me, didn't  
need to say a word  
Well her lips did all the talkin', and not a sound was ever heard Pretty baby, won't you tell me  
what's on your mind  
She threw me rhythm from a red car, she threw me rhythm from a red car Here we go baby,  
takin' a turn for the better  
I'll work your curves, girl, let the road run on forever  
Now you're lookin' good in the mirror, then you blind me with your lights  
Well you're drivin' me crazy on this road to paradise Pretty baby, won't you tell me what's on  
your mind  
She threw me rhythm from a red car, she threw me rhythm from a red car  
(In your eyes I see you're telling me that you want it too)  
She threw me rhythm from a red car, she threw me rhythm from a red car  
(In your eyes I see you're telling me that you want it too)  
Rhythm from a red car, she threw me rhythm from a red car  
(In your eyes I see you're telling me that you want it too)  
She threw me rhythm from a red car, she threw me rhythm from a red car  
(In your eyes I see you're telling me that you want it too)  
She threw me rhythm, rhythm
