

Oh How I Love You (feat. Chris Quilala)

Jesus Culture

Father in heaven
You know my longing
You hear my every
Thought and prayer I bring you
My heart
And all my affection
I long to love You Pre
To love You with all that I have
To give to You all that I am
Oh how I love You
Bow down before You now
God I adore You
Worship before You, lay my life down You are my Refuge
The one that I run to
I find my strength in You alone I know you are with me
Here in this moment
Teach me to love You Pre-
To love You with all that I have
To give to You all that I am Oh how I love You
Bow down before You now
God I adore You
Worship before You, lay my life down
I live my life for one thing
Poured out as an offering
An offering a worship
To lay my life down
I live my life for one thing
Poured out as an offering
An offering a worship
I give to you now. Oh how I love You
Bow down before You now
God I adore You
Worship before You, lay my life down
Oh How I love You
God I adore You, God I adore, God I adore* again*
* again*
