Oh How I Love You (feat. Chris Quilala)

Jesus Culture

Father in heaven
You know my longing
You hear my every
Thought and prayerI bring you
My heart
And all my affection
I long to love YouPre
To love You with all that I have
To give to You all that I am
Oh how I love You

Bow down before You now God I adore You

Worship before You, lay my life downYou are my Refuge

The one that I run to

I find my strength in You aloneI know you are with me

Here in this moment

Teach me to love YouPre-

To love You with all that I have

To give to You all that I amOh how I love You

Bow down before You now

God I adore You

Worship before You, lay my life down

I live my life for one thing

Poured out as an offering

An offering a worship

To lay my life down

I live my life for one thing

Poured out as an offering

An offering a worship

I give to you now.Oh how I love You

Bow down before You now

God I adore You

Worship before You, lay my life down

Oh How I love You

God I adore You, God I adore, God I adore* again*

* again*
