

# Strut

## Lenny Kravitz

Baby do you know what I think you are?  
You are a gene, you are a star  
So let it out, bring it on the scene  
And show the world exactly what you mean  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, show me how you work  
Strut! When you lay it down, how you hurt me so  
No need to stop, baby go go go go!  
You are a freakin' angel by the way you move  
Just be yourself, you've got nothing to prove!  
Baby,  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, show me how you work  
This is the chance for you to come yourself baby!  
Strut! Strut! Strut! Strut! When you feel the  
need, the need to express  
Whip it off the pain, our happiness  
Take it to the street 'cause it is your stage,  
Just be yourself and bust out of your cage!  
Baby,  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, let me see you work  
Strut!  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, let me see you work  
This is the chance for you to come yourself baby!  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, let me see you work!  
This is the chance for you to come yourself baby!  
Baby,  
Strut, let them see you walk  
Strut, let your body talk!  
Strut, let me see you work!  
This is your chance for you to come yourself baby!  
Baby, Strut!
