

Woke Up Late (feat. Hailee Steinfeld)

[Acoustic]

Drax Project

Woke up late
Somewhere far away from home
Pockets empty, wallet gone
The sun is streaming all on down on my face
Layin' down on someone bed
A girl that I had hardly met
My head is spinnin' like i've been out for days
Now you're waking up too
Lying next to me in your room
Not quite used to someone so new
Did ya catch my name, yea
Wonder how long I slept in
I don't know where the helli've been
But I know that's alright
Last night we met at one
Drank till two
Danced till four
Walked you home
Awake till dawn
Slept till noon and
Now I want more
I got that taste oh
It's in my mouth it's like I had too much last night
It just felt so right
Because of you, now
I could go or I could stay 'cause I
Got nothing planned today
And I know that's all right Last night we met at one
Drank till two
Danced till four
Walked you home
Awake till dawn
Slept till noon and
Now I want more Why's it so, so easy with the lights down?
Why's it so, so easy when the night's ours?
Why's it so, so easy with the lights down?
Why's it so, so easy yea so, so easy oh...
Woke up late
Somewhere far away from home
Pockets empty wallet gone

The sun is streaming all on down on my face
Yea, last night was fun lets do it again
We both know we're more than friends
And I know that's all right Last night we met at one
Drank till two
Danced till four
Walked you home
Awake till dawn
Slept till noon and
Now I want more Last night we met at one
Drank till two
Danced till four
Walked you home
Awake till dawn
Slept till noon and
Now I want more Why's it so, so easy with the lights down?
Why's it so, so easy when the night's ours?
Why's it so, so easy with the lights down?
Why's it so, so easy yea so, so easy Last night we met at one
Drank till two
Danced till four
Walked you home
Awake till dawn
Slept till noon and
Now I want more
