

# Show Me Love

Kilo Ali

I gonna show you, you buster  
You wanna love me now show me love  
I gonna show you, you buster  
You wanna love me now show me love I flow like a butterfly and sting like a bee it's me, Ali  
And its good to be strong in the game and you know this man  
And your so good can't refuse it this is my shadow this is my music  
You start fire, you start funk now you see me, now you don't  
Soul to sound, side to side shawly shuky shuky now  
Cut up cut up in the dish how much cut up do you wish?  
I don't play, I'm no toy I'm rollin' it up for my homeboys  
I start on it, there will be no stop you can't beat me boy, I'm superman I gonna show you, you  
buster  
You wanna love me now show me love  
I gonna show you, you buster  
You wanna love me now show me love  
I rap too fast, makin' that cash cuttin' up like a piece of glass  
Imagine if you can if you can rap like Kilo man  
Frr-bass, frr-low I live inside your radio  
So, don't give me no hustle for I'm the king of the castle  
And a brain supreme you who am I? Kilo the dream  
That's right ha ha that's it ha ha  
Some times a brother trips I know you admire me I didn't mean to dis you I'm sorry  
I apologize, but you better recognize  
What is crap if you don't know crap?  
What is rap if you really can't rap then?  
Who in the hell said they wanted a little more?  
What in the fuck do you take me for?  
I'll never go out for the die  
And you you'll never take me alive  
Oh la, can you feel the party jumpin'?  
I gonna show you, you buster  
You wanna love me now show me love  
I gonna show you, you buster  
You wanna love me now show me love Say I, I made that pussy hurt to sexy for my shirt  
We didn't know know why  
I put my dick on the side of her mouth  
She came all down my pants she got up and danced  
And then she started sayin', oh ah, I love your ding a ling She told the rest of the girls I was little  
But I can go 24 in the middle  
Fuckin' girls is part of my dick  
Bumped de bump, remember that  
From the back, looked kinda fat

God-damn! Shi-shi you made me scream  
Shi-shi was 17  
Shi-shi was a beauty queen  
Shi is a name, budda G, budda GI gonna show you, you buster  
You wanna love me now show me love  
I gonna show you, you buster  
You wanna love me now show me love I gonna show you, you buster  
Love me now show me love  
Show you buster
