Everything that's bad for me right here in my face
I been on the fo' block, I been on the A
Gun upon my waist like I'm tryna catch a case
Move bitch, a nigga need a little space
Stank look on my face, that's too much drugs and drank
Been a hundred 'bout my past, I'ma help me get away, damn
What you think I do? I buy more drugs and drank

 What you think I do? I buy more drugs and drank
 Move bitch, a nigga need a little space
 Don't tell I'ma be okay 'cause this shit not okay
 Give a fuck 'bout what you think bitch, fuck what you think
 But don't come judgin' me because I had too much drugs and drankLord, help me Lord. These
 kids Lord,
 they playing with all these guns and drugs,
 they remind me when I was young. See, in the 80s,
 we didn't play that shit. But we was crack babies. No Lord,
 I'm not no hypocrite, I'm just an old motherfucker,
 tryna save some shit. Lord, I ask my son "Why it is just thugs here,
 hanging away?" He looked at me and said "Pops, I'm staying dangerous.
 " Help me Lord, I tried to tell him there are many ways to stay
 dangerous. Power is dangerous, knowledge is dangerous,
 having them dollars is dangerous.
 He just looked at me Lord and said "Pops, I'm talking dangerous."
