

GOT IT GOOD (feat. KAYTRANADA)

Craig David

Don't worry bout the tack or we'll throw in the back caus I've got it good
And you the best I ever had baby
You know that you're bad and
I got it good
I'm certain that you're worth it
You deserve it girl

Don't worry bout the tack or we'll throw in the back caus I've it good
Tell me do you remember when we started
Remember me and you creeping round late at night and
Yeah, you had me down when I had nothing
And that's the reason i was for you now that i can't
My hand meets your hand
Our love isn't plastic
But here's my credit
I'm not gon max it
The fact is it's no stress
Baby I got this

Treat you like the queen in Buckingham Palace
Don't worry bout the tack or we'll throw in the
back caus I've it good
And you the best I ever had baby
You know that you're bad and
I got it good
I'm certain that you re worth it
You deserve it girl

Don't worry bout the tack or we'll throw in the back caus I've it good
Got no hands on my?
When it comes to me and you girl our time is priceless
There's no need for hesitation when you swipin
I wanna show appreciation so I buy it
Buy it, go try it, girl if you like it
But you used to?
The type that's quite rare

One of a kind, do anything that can do please my highness
