

Mum's the Word

Spirit of the West

I hope you get your 15 years of fame
Three square a day
And a picture with your name
Across your chest would suit you best
How you feeling all is well?
You get more than you expected when it exploded
Living hell's alive and well congratulations
give yourself a little pat
They fucked the brothers round they won't be coming back
You made quite sure of that
You made so sure of that
And mum's the only word now for the children of the dads who will not talk
under a million tons of rock
Their lips are sealed and so are yours
(Mum's the only word) And so are yours
You used to have a longer fuse
Did some of it get used?
Cause you get short when you get loaded
Since it exploded
Since it exploded
And mum's the only word now for the children of the dads who will not talk
under a million tons of rock
Their lips are sealed and so are yours
(Mum's the only word) And so are yours
