

# Lowland Hum

## Out Came the Wolves

Calm... down  
Sit back and here me out...  
There's... no  
Wisdom in chasing your doubt  
Cause i know that their is more inside your bones  
more than a broken heart uncracks a broken soull will love you when there's nothing left  
I will love you when there's nothing else  
I will hold you when there's nothing left to say  
I will love you...  
I will love you, if you stay  
sleep... well  
i know you're tired now  
Don't... Dwell  
on the thing you carry around  
Cause i know that their is more inside your bones  
more than a broken heart uncracks a broken soull will love you when there's nothing left  
I will love you when there's nothing else  
I will hold you when there's nothing left to say  
I will love you...  
I will love you, if you stay  
Oh if you stay  
I will love you  
(I will live you) 2x  
I will hold you when theres nothing left to say  
I will love you  
I will love you, if you stay
