

# Madness

## All That Remains

History repeats itself  
Over and over, again and again  
Why should we escape ourselves  
We are who we are in the end  
In the end Over & over again  
Over & over again This is madness, madness  
And you know that  
This is madness, madness  
And you know that  
This is never-changing, it's always been this way  
Consuming madness, madness  
Enemies who once were friends  
Round and around till we know how it ends  
I can't believe how sickening  
All the love lost we can't even pretend Over & over again  
Over & over again This is madness, madness  
And you know that  
This is madness, madness  
And you know that  
This is never-changing, it's always been this way  
Consuming madness, madness  
This is madness, madness  
And you know that  
This is madness, madness  
And you know that  
This is never-changing, it's always been this way  
Consuming madness, madness
