

Take It and Run

Joe Jonas

Baby, so happy that you made it out tonight
With the way you look under these lights,
You're the brand new owner of my eyes, my eyes
I know, I know, many men have tried and failed before,
And baby, I'm pretty sure
That tonight's the night, will change your life,
Grab my hand, watch us fly
So many things I can't wait to show ya,
So many things I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and run
Take it and run
Baby, you take my breath with every step,
With every move
How you do it, I have no clue
But girl, I can not lie, I'm so into you
Oh, oh, oh, baby
I promise if you give this a try
You'll be more than satisfied
So, open the door, let me in
Brand new life, let's begin
So many things I can't wait to show ya,
So many things I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
So many things I can't wait to show ya,
So many things I can't wait to show ya
Give me the chance to get to know ya
Say yes before the night is over
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and run
Take it and run
Here's our chance, let's
Take it and run, take it and run
Take it and run
Take it and run
So many things I can't wait to show ya,
So many things I can't wait to show ya

Give me the chance to get to know ya
Say yes before the night is over
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and run
Here's our chance, let's
Take it and run, take it and runTake it and run
