

Home (Acoustic Version)

SCHWARZ

We keep asking for a better place
Somewhere far away on an island
We keep rushing day by day
No time to share some silence.(home)Let me show
Brick by brick, stone by stone
As long as we stay together
That's a place to call homeee.So if you need shelter
You know the way to go
As long as we stay together
That's a place to call homeee.They never open door
A place to hide from the storm
For everyone to be invited
And that's why we all are united.
Let me show
Brick by brick, stone by stone
As long as we stay together
That's a place to call home.So if you need shelter
You know the way to go
As long as we stay together
That's a place to call home.Show the world outside
No more demons, no more saddlers
Can let us make thing run
Let us just to share some silence.Let me show
Brick by brick, stone by stone
As long as we stay together
That's a place to call home.
So if you need shelter
You know the way to go
As long as we stay together
That's a place to call homeee.
