

Take Care (Booster + 18 Mix)

Funker Vogt

Crowded cities polluted air
every day is getting worse
try to breathe the smoky steam
it will affect your lungs burning oil-fields in Iraq
a dark cloud darkens the sun
but this happens so far away
so why should I take care we are living in a nightmare
we call it normal life
the time is reached that we take care
and stop dancing on the knife
The ozone-layer is destroyed
deadly sunrays hit the earth
the world turns from green to grey
all that remains is dust as long as I live it will be fine
there's nothing what I can do
the world will die and so do I
so why should I take care
we are living in a nightmare
we call it normal life
the time is reached that we take care
and stop dancing on the knife
