

# Let's Go to Work

[Kira Willey](#)

let's go to work  
I'd like to go to work with you today  
I'd like to try a ride on the train  
I'd like to see what kind of things you do so please mom let me come too  
I'd like to go to work with you today  
I'd like to try a ride on the train  
I think it's time I make my corporate debut so please dad let me come too  
let's go to work  
we can't be late  
now is not the time to play  
let's go to work  
we can't be late  
I'm big enough no matter what you say  
I'd like to go to work with you today  
I'd like to wear a suit start my resume  
I think I'd do quite well in an interview so please mom let me come too  
let's go to work  
we can't be late  
now is not the time to play  
let's go to work  
we can't be late  
I'm big enough no matter what you say  
I'd like to go to work with you today  
I'd like to make some calls try to earn some pay I think that I could help in your review  
so please dad let me come too  
let's go to work  
we can't be late  
now is not the time to play  
let's go to work  
we can't be late  
I'm big enough no matter what you say
