

Most of Us

Wiz Khalifa

Most of us, they talk shit, but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
Most of us, they talk shit, but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
 Most of us, most of us, they can't fuck with most of us
 Most of us, most of us, they can't fuck with most of us
Most of us, they talk shit but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
Most of us, ride around with
 pistols, we don't give a fuck
 Most of us, down to rep that gang and we gon' throw it up
 Most of us, brought our own dope and we down to smoke
 Most of us, need a bad bitch with some good throat
Most of us, came from nothin', we get somethin', we gon' ball
 Most of us, got that work for sale, we just need a call
 Most of us, 'bout that change, pop his brain, no remains
 Most of us, feel no pain, homie, it's a dirty game
 Most of us, never seen this comin' so we feelin' blessed
 Most of us, got alotta shit to get up off our chest
Most of us, still up in the field right where niggas get killed
 Most of us, know that shit can get real in that city of steel
Most of us, they talk shit, but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
Most of us, they talk shit, but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
 Most of us, most of us, they can't fuck with most of us
 Most of us, most of us, they can't fuck with most of us
Most of us, they talk shit but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
Most of us
 Most of us
 Most of us
 Most of us
 Most of us, made our own way without a hand out
 Most of us, smoke that loud kush so we stand out
 Most of us, rather get the top instead of fuckin' that bitch
 Most of us, rather pass her off instead of lovin' the bitch
Most of us, spend thousands on clothes, still don't care how we dress
 Most of us, seen her top, but still know what the bottom is
 Most of us, keep your main bitch in our phone
 Most of us, keep Khalifa kush in the bong
 Started off with nothin' now my niggas is on
 If we got a problem, we don't put it in song
 Most of us, got our change up, never change up

Most of us, Taylor Gang on, you a stranger
Most of us, they talk shit, but they can't fuck with
most of us

Most of us, they talk shit, but can't come close to most of us
Most of us, they talk shit, but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
Most of us, most of us, they can't fuck with most of us
Most of us, most of us, they can't fuck with most of us
Most of us, they talk shit but they can't fuck with most of us
Most of us, they talk shit, but can't come close to most of us
