

# All of Me

Blake

The first day that I met you  
I think I always knew  
That you were meant to be the one  
And then the feeling grew  
With God and friends my witness  
Our love will never die  
I take the gift you gave me  
Don't need to question why  
For all the faults I'm made of  
For all the wrongs I do  
I'm not asking you to judge me  
Just be true  
All of me  
Is what I give to you  
And everything I have  
I wanna share with you  
And with this ring  
For all eternity  
I make this vow  
When I give you all of me  
This life is short and precious  
A one way ticket ride  
I thank you for the journey  
I know you're on my side  
And we are only here once  
I'm glad we shared this day  
Of knowing something special  
That will never go away  
For all the faults I'm made of  
And all the wrongs I do  
I'm not asking you to judge me  
Just be true  
All of me  
Is what I give to you  
And everything I have  
I wanna share with you  
And with this ring  
For all eternity  
I make this vow  
When I give you all of me  
All of me  
That's what I give to you  
And everything I have  
I'm gonna share with you, yeah  
And with this ring  
I give for all eternity

My love  
I make this vow All of me  
Is what I give to you  
And everything I have  
I wanna share with you  
And with this ring  
For all eternity  
I make this vow  
When I give you all of me  
I give you all of me
