

Drop

Drowning Pool

Hands up now nobody move
And if I see a hero then we all go down
You don't know me from the truth
But you can bet on the fact that I don't fuck around
Day in, day out, with or without
Always on this grind so I run this town
And I'll tear it all down just to watch it burn
Just to hear the sound I know it's hard for you to swallow
But you were only born to follow We give to get a little, take to have a lot
That's the way it is and it's never gonna stop
Give to get a little, take to have a lot
We're all just waiting on the drop Drop
I shoot straight, you hesitate
When it all stalls out I go full on hate
You talk a good game puffing on that peace pipe
Pissing from up I don't make it rain
You got to know, you got to know
So gather around, gather round for this one time show
I got the punchline now
Let me check your chin cause your mouth's a joke I know it's hard for you to swallow
But you were only born to follow We give to get a little, take to have a lot
That's the way it is and it's never gonna stop
Give to get a little, take to have a lot
We're all just waiting on the drop
We give to get a little, take to have a lot
That's the way it is and it's never gonna stop
Give to get a little, take to have a lot
We're all just waiting on the drop
Get, get ready now
Hold on, hold tight
You're, you're going now
Straight to the top I know it's hard for you to swallow Give to get a little, take to have a lot
That's the way it is and it's never gonna stop
Give to get a little, take to have a lot
Now we're all just waiting on the drop
We give to get a little, take to have a lot
That's the way it is and it's never gonna stop
Give to get a little, take to have a lot
Now We're all just waiting on the drop Drop Get, get ready now
Get, get ready now
Hold on, hold tight
Hold on, hold tight

You're, you're going now
You're, you're going now
Straight to the top
