

# Walk Me Home (with Lontalius)

[Ryan Hemsworth](#)

Boy, I gotta go  
There's no home for me here anymore  
Boy, you know I would stay  
There's no room for me left in your heart Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
I tripped up, don't lie, I'll feel better if you walk me home  
And never leave me alone, leave me alone, leave me alone  
I can't say when I'm gone I'll feel better if you walk me home  
Never leave me alone, leave me alone, leave me alone I still feel you in the back of my mind  
and, boy, it'll ache  
Boy, it'll ache  
I'll still love you and I think that won't change, but tonight I'll break  
Tonight I'll break Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
Leave me alone, leave me alone, leave me alone  
There's no room for me left in your heart  
I tripped up, don't lie, I'll feel better if you walk me home  
And never leave me alone, leave me alone, leave me alone  
I can't say when I'm gone I'll feel better if you walk me home  
Never leave me alone, leave me alone, leave me alone Never leave me alone, leave me alone,  
leave me alone  
Never leave me alone, leave me alone, leave me alone  
Never leave me alone, leave me alone, leave me alone
