

Young Hearts (Dean Cohen Remix)

NoMBe

Say all you want
Girl you are an angel
Much better then you know,
Girl, you see, you're all that I want
You had me at hello
Girl I almost fainted
Too much for my young heart,
and soul to bare to feel I want to get away
Please say that you want to
The places we could go are all posh & green
I'll pay for the gas,
We're heading for the hills
and it could be amazing,
Uh, how I can taste it the only thing I'm gaging is how you feel
Uuuh, is there something that you need to have?
If it's indispensable, something I can get arrested for
You got it, shorty say the word,
Hell & bloody murder,
Ain't no mountain high
and hurdles are unheard of your worth it
So teach me how to be all that you want
