

Force of Nature

Bea Miller

I don't know why but my hands are shaking
I can see you coming and I stand waiting
Yeah I get tongue tied in the conversation
It's an fucked up, sad, sick situation I tried to tie my heart down, board up all the windows
Oh but it's too late now
I let you get too close
I know I should take cover, hide inside these four walls
But baby I surrender, it all 'Cause you're a force of nature
Look at what you've done
I can taste the danger but I don't wanna run
So pull me to the ground and I won't put up a fight
I'm a caution taker, but baby you're a force of nature
Oh...I feel your lips move in and they take me under
You know just what to do that make me want you
And I know I'll be broken when it's over
Oh but I can't help but move closer I tried to tie my heart down, board up all the windows
Oh but it's too late now
I let you get too close
'Cause you're a force of nature
Look at what you've done
I can taste the danger but I don't wanna run
So pull me to the ground and I won't put up a fight
I'm a caution taker, but baby you're a force of nature Oh...I don't care if I survive
So crash into me one more time Yeah...
'Cause you're a force of nature
Look at what you've done
I can taste the danger but I don't wanna run
So pull me to the ground and I won't put up a fight
I'm a caution taker, but baby you're a force of nature Oh...But baby you're a force of nature
nature Oh But baby you're a force of nature Oh But baby you're a force of nature
