

# Disconnect and Apply

## Dead Letter Circus

I don't think I can take this one more day in one day out  
My tolerance has faded I am holding on here now why I can't take another day of this  
I don't feel it  
I object to life inferior  
I can't face another day of this  
I don't feel it  
I reject this life inferior Feel the world inside my head  
I'm fine  
I can't even relate to all these dead end one way lines  
Apply and disconnect here so that I can here the sound in my (mind) I can't take another day of  
this  
I don't feel it  
I object to life inferior  
I can't face another day of this  
I don't feel it  
I reject this life inferior Feel the world inside my head  
I'm fine Let go  
Always I can find a way  
I can't take another day of this  
I don't feel it  
I object to life inferior  
I can't face another day of this  
I can't feel it  
I reject this life inferior See you at work on monday
