## Gorillaz

It's all good news now  
Because we left the taps running  
For a hundred years  
So drink into the drinkA plastic cup of drink  
Drink with a couple  
Of people  
The plastic creating peopleStill connected  
To the moment it beganIt's all good news now  
Because we left the taps running  
For a hundred years  
So drink into the drinkA plastic cup of drink  
Drink with the purple, the people, the plastic eating people  
Still connected  
To the moment it began
