

# Why Can't We Love Each Other

[Juliana Hatfield](#)

I feel like I'm broken  
I know you feel the same  
We're pretty damaged  
Fragile and afraid Why can't we love each other?  
Why can't we love each other? We both need somebody  
Our houses are not homes  
Why don't I ever see you  
When you live just down the road?  
It is a choice we can make  
Our lives a song  
Will it be a blues or a hymn?  
A dirge or a Psalm Why can't we love each other?  
Why can't we love each other? Life is so short, what are we waiting for?  
Why can't we love each other?  
Why can't we love each other?  
Why can't we love each other? It could be so simple  
Just tell me what you want  
Don't keep it to yourself  
Don't stay shut in for too long  
Aren't you tired of being lonely?  
Aren't you sick of crying your eyes out?  
Don't you want to stick with something?  
Are you ready for forever now? Why can't we love each other?
