Every Other Way (Amin van Buuren Remix)

BT

Is it strained, when I call you
Or do you think, that I might forget
Oh your love, is radiating
The farther away

I go

I goDo you count, on me now And do you wait, up for me all night I wish I could run, to you when you need me

You know I can't be far

For long For long

Heart don't fail me now

Cause there is no time to waste

Don't shut me out, we shouldn't wait another day

I've searched for you, on my hearts high speed chaseHear me out, may be the only chance to say Hold me now

I've said it Every Other WayThese tears I've cried

More moments gone to waste

I've searched for you

I've said it Every Other Way

Heart don't fail me now

Cause there is no time to waste

Don't shut me out, we shouldn't wait another day I've searched for you, on my hearts high speed chase

Hear me out, may be the only chance to say

Hold me now

I've said it Every Other Way
