

# The Line

RAYE

We been waiting in line to get into this club  
Like all night, all night  
We don't wanna go home so we'll take it outside  
Yeah, outside, outside This tick by the door like a broomstick  
With a clipboard tryna be uptight  
Over capacity, rubbin' us wrong  
But my girl better put her up right  
And we're all a bit fed up  
Half of us halfway wasted  
In the queue gettin' right up  
In the queue gettin'  
Oh yeah, we look like sickness  
Barely movin' inches  
Let's leave this line, your club will close  
We'll run you outta business  
What I do, what I do  
That's what I do We been waiting in line to get into this club  
Like all night, all night  
We don't wanna go home so we'll take it outside  
Yeah, outside, outside  
We been waiting in line to get into this club  
Like all night, all night  
We don't wanna go home so we'll take it outside  
Yeah, outside, outside  
1AM and it's freezin'  
Silly, all us girls got our legs out  
None of us are havin' this, the queue ain't moved  
So the heels are comin' off right now  
I think we're done bein' patient  
So nobody can tell us all to pipe down  
We're offline, cheap wine does that to your madness  
Outside your club now Yeah, we look like sickness  
Barely movin' inches  
Let's leave this line, your club will close  
We'll run you outta business  
What I do, what I do  
That's what I do We been waiting in line to get into this club  
Like all night, all night  
We don't wanna go home so we'll take it outside  
Yeah, outside, outside  
We been waiting in line to get into this club  
Like all night, all night

We don't wanna go home so we'll take it outside  
Yeah, outside, outside We spent enough time waiting today  
Front of the line, line, still got no entry  
We been waiting in line to get into this club  
Now fuck that, haha We been waiting in line to get into this club  
Like all night, all night  
We don't wanna go home so we'll take it outside  
Yeah, outside, outside Yeah, we look like sickness  
Barely movin' inches  
Let's leave this line, your club will close  
We'll run you outta business  
What I do, what I do  
That's what I do
