

Lost

Cher Lloyd

I heard from a friend of a friend that you you've been checking back in
'cause I said goodbye moved overnight and you haven't heard much since then
(wondering how I'm doing now)
It's none of your business first of all
(wondering how I'm doing now)
But if you've got to know well sure
Well sure
You think I'd be lost think I'd be lost without you lost
Is it hard knowing you're wrong see I got lots without you
Lots without you
Great sex in the morning sex in the morning someone to hold me
I got lots
Stay out in the nighttime out in the nighttime have me a wild time
I got lots
You heard from a friend of a friend that I've been doing just fine, I
You don't want me you just want me to keep wanting you all of the time
But if you were wandering
It's none of your business first of all
(wondering how I'm doing now)
But if you've got to know well sure
Well sure
You think I'd be lost think I'd be lost without you lost
Is it hard knowing you're wrong see I got lots without you
Lots without you
Great sex in the morning sex in the morning someone to hold me
I got lots
Stay out in the nighttime out in the nighttime have me a wild time
I got lots
To be honest I think I dodged a bullet with you
And I don't know how I didn't see it coming but woo
Yea you got a God complex and now I'm thinking God you're my ex
I hope you don't trip up on yourself If you think you're so hot go back to hell
You think that I You think I'd be lost think I'd be lost without you lost
Is it hard knowing you're wrong seeing I got lots without you
Lots without you
Great sex in the morning sex in the morning someone to hold me
I got lots
Stay out in the nighttime out in the nighttime have me a wild time
I got lots
