She's Mad

David Byrne

Bangin' his head Stab in the back Look her in the eye and Buddy, you can tell she's crazy Smack in the face Look at 'em go Take a look around and you can see I don't mean maybelf sex is a weapon Who's winnin' this war? My legs are too tired I can't run anymoreShe's mad She's sore I'm getting out for sure My time Is up I just can't stand this stuff Said look where you're goin' You don't even know what you're knowin' Look where you're goin' You don't even know what you're knowin' Oh now darlin'Heaven's above Look out below Fell on his back Rubbin' his head Pretty little girl; sure as hell she ain't no ladyI'm mild as a bunny I'm meek as a lamb You lead me to slaughter I'm mud in your hands I know - I say I'm findin' out today Someway - somehow I'm gonna pull you downSo blow me away Leave me alone I beg you please Please come on homeNow look where you're goin' You don't even know what you're knowin' Now look where you're goin' You don't even know what you're knowin' Ooh now darlin'All over the house All over the town Bit him in the hand and he turned around and hit her with a hammer Flippity flop Now when does he stop?

Now here they come again And that's the way they live togetherSo look where you're goin' You don't even know what you're knowin' Dook where you're goin' You don't even know what you're knowin' Ooh now darlin'Look where you're goin' You don't even know what you're knowin' Now look where you're goin' You don't even know what you're knowin' Ooh now darlin'Look where you're goin' You don't even know what you're knowin' Look where you're goin' You don't even know what you're knowin' Look where you're goin' You don't even know what you're knowin' Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
