

Good News

Ocean Park Standoff

No, this is not a test
Never was, never will be
You can take my best
It was yours, it was never for me I'm just looking for something
To get me out of my seat
Something that's true
What did I do? 'Cause every time I turn around
I back down who I am
Tell me why it feels like I'm
Still on the run I need some good news, baby
Feels like the world's gone crazy
Give me some good news, baby
Give it to me, give it to me
I need some good news, baby
'Cause all the world's gone crazy
I need some good news, baby
Give it to me, give it to me I've been holding back
When our eyes should be falling free
But it's not having faith
Just believe what you can't see
And I'm still looking for something
To get me out of my seat
Something that's true
What can I do? 'Cause every time I turn around
I back down who I am
Tell me why it feels like I'm
Still on the run
I need some good news, baby
Feels like the world's gone crazy
Give me some good news, baby
Give it to me, give it to me I need some good news, baby
'Cause all the world's gone crazy
I need some good news, baby
Give it to me, give it to me Give it all or give me up
I won't settle for enough
It's the highs and it's the lows we remember Give it all or give me up
I won't settle for enough
It's the highs and it's the lows we remember
Remember I need some good news, baby
Feels like the world's gone crazy
Give me some good news, baby
Give it to me, give it to me I need some good news, baby

'Cause all the world's gone crazy
I need some good news, baby
Give it to me, give it to me Give me some good news, baby
I need some good news, baby
Give it to me, give it to me Give it all or give me up
I won't settle for enough
It's the highs and it's the lows we remember
