

# Nervous Alibi

## The Outfield

Cherry, where you been since 9 this morning?  
Give me all the names who saw you there  
But if they can't remember  
I know that you'll surrender  
Another nervous alibi  
Cherry, what's this game you think you're playing  
Don't you know I hate those clothes you wear  
For I've seen men undress you  
And with their eyes caress you  
Another nervous alibi  
Cherry, name the day and I'll be waiting  
Give me just one chance to show I care  
I know if we're together  
It can go on forever  
Another Nervous Alibi
