Goin' Against Your Mind

[Built to Spill](#)

People think when you don't understand
What it takes to wanna be a man
I don't care much for that
I don't know whyJust a fight or just a waste of time
Hiding things that no one wants to find
I don't know much of that
I don't care whyGoin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mindGoin' against your mind, goin' against your
mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
When I was a kid I saw a light
Floating high above the trees one night
Thought it was an alien
Turned out to be just godIf you're not sure who not to believe
Who has better reasons to deceive?
They're really good at that
That's all they doGoin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mindGoin' against your mind, goin' against your
mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
Goin' against your mind, goin' against your mind
And we won't share
No, we won't share
And we won't share
No, we won't share
