

Round and Round (feat. Han Suji)

HEIZE

See Ya
Never gone my way
Better will someday
Never far away
See Ya
Never gone my way
Better on my stay
Never far away
Round and round
and I never know why
Round and round
and it will show us way out
It's my delight
As day goes by
you hold on tight
another day
You're wondering why
but you know why
no other way
Somedays the sun will shine down
Somedays the moon will cry
Tomorrow we'll see
Tomorrow we'll be
As we go on our way
The world in your eyes
forever is lie
as we go on our way
There is a thousand things to know
Sometimes we're standing by
the things we never understand
As we go on our own way
The sun goes down
The tides are low
I'll see you on the day
Letting you go on your way
See Ya
Never gone my way
Never we'll someday
Never far away
See Ya
Never gone my way
Never on my day

Never far away
Round and round
and I never know why
Round and round
and it will show us way out
It's my delight
