

# Cast Down the Heretic

## Nile

Blasphemer, heretic, defiler of the sacred ones  
Thou art deprived of your limbs  
Thy nose shall be split  
Thou art cast down and overthrown  
Ra-Harmakhis destroyeth thee  
He damneth thee and driveth hooks into thy body  
Isis sayeth in mighty voice  
"The number of thy days are cut short  
Thy bones are broken to splinters, thy vertebrae are severed."  
Horus hammereth thy head  
The sons of Heru smash you with their blows  
Thou art decimated by their violence  
Thou fallest backwards as thou retreateth like unto Apep  
The great company of gods gather in retribution  
They hath passed judgment upon thee  
They cast down your heresy  
They spit up on thee and thy rebellion  
And turn their back upon thee  
Horus repulseth thy crocodile  
Sut defileth thy tomb  
Nephthys hacketh thee in pieces  
The sons of Horus speareth thee  
The gods repulse thee  
The flame of their fire is against thee  
Cursed art thou, impaled thou art, flayed art thou  
Heretic, thou art cast down  
Blows are rained upon thee  
Dismemberment and slaughter are on thee  
Thy crocodile is trampled underfoot  
Thy soul is wrenched from its shade  
Thy name is erased  
Thy spells are impotent  
Nevermore shalt thou emerge from thy den  
Thy city Armana lays in ruin  
Damned art thy accursed soul and shadow  
Die O one, which art consumed  
Thy name is buried in oblivion  
Silence covereth thee and thy false one  
Down upon thy belly  
Be drowned, be drowned, be vomited upon  
The gods have pronounced thy doom  
They scorn thee and thy false Aten  
The ancient ones turn their backs upon thee

Thou art cast down, overthrown  
Thy reign of heresy is ended  
Those thou hast driven out have risen against thee  
Cast down the heretic  
Cast down the heretic  
Cast down the heretic  
Khnemu draggeth thy spawn to the block of slaughter  
Sick shalt thou be at the mention of thine own name  
Sekhmet teareth out thy bowels and casteth them into flames  
She filleth thine orifices with fire  
Uadjit shutteth thee in the pits of burning  
Nevermore shall you breathe or procreate  
Neither thy house or tomb exist  
Thou shalt drive thy teeth into thine own body  
Heretic, thou art cast down  
Overthrown, ended, hacked in pieces, slaughtered, butchered  
Ra hath made Thoth to slay thee utterly
