

# Prosecco

## Timeflies

You, you got me curious about the two of us  
And all the things that we could do  
Let the music set the mood  
You, you got me curious about the two of us  
And maybe we should change the view  
So, baby, I could sip on you  
While you're sipping Prosecco-secco-secco  
While you're sipping Prosecco-secco-secco  
Can't look away, no  
Can tell she want me, her body like a Bugatti  
Bet you I like Mazseratis in the streets of Abu Dhabi  
Scream louder than [?], come get it  
Got me feeling some type of way, ah  
She gave a hint at me, dance with me, baby  
I'll be your fantasy under the mirrors, no vanity  
You know I got the bread, you got the butter  
Come spread itBut you wine and dining  
I'mma go and send a couple bottles of the finest  
I'm infatuated, so captivated  
Don't need a waiter cause I'll be waiting on  
You, you got me curious about the two of us  
And all the things that we could do  
Let the music set the mood  
You, you got me curious about the two of us  
And maybe we should change the view  
So, baby, I could sip on you  
While you're sipping Prosecco-secco-secco  
While you're sipping Prosecco-secco-seccoDrink you head to toe
