

Music That You Can Dance To

Sparks

Music that you can dance to
That and that alone is enough for me
Stark naked modern music
Hotter than your momma will ever be
Music that you can dance to
Cracks you like a whip but it feels so right
Outside the world is colder
Every single night it's another fight
So what's it gonna be (gonna be, gonna be)
A symphony tonight (symphony tonight, symphony tonight)
Perhaps a little jazz (a little jazz, a little jazz)
All I wanna hear everyday, every night is
Music that you can dance to
Every single beat where it ought to be
Lip smacking good, good music
That and that alone is enough for me
So what's it gonna be (gonna be, gonna be)
A symphony tonight (symphony tonight, symphony tonight)
Perhaps a little jazz (a little jazz, a little jazz)
I gotta, gotta move, to the beat, to the beat tonight (tonight,
tonight, tonight, tonight, tonight, tonight, tonight, tonight,
tonight, tonight, tonight, tonight, tonight, tonight, tonight)
Get up dear
Get up and try
Get up dear
Get up and fly
Get up hon
You're the one
Get up hon
Son of a gun
Shake it dear
Don't be shy
Shake it dear
Right in my eye
Shut up dear
Don't be weird
Get up dear
The boys are here
Music that you can dance to
Get yourself in tune for the real McCoy
No heavy message baby
Just the perfect blending of sex and noise
Get up dear
Get up and try
Get up dear
Get up and fly
Get up hon

You're the one
Get up hon
Son of a gun
Shake it dear
Don't be shy
Shake it dear
Right in my eye
Shut up dear
Don't be weird
Get out of here

The police are here Music that you can dance to
That and that alone is enough for me
Music that you can dance to
Hotter than your momma will ever be Music that you can dance to
Music that you can dance to
Music that you can dance to
Music that you can dance to
