

White Noise

The Interrupters

White Noise, White Noise, White Noise
oooooooooh All you are is white noise to me
To me, To me
oooooooooh All you are is white noise to me I won't listen, static in my ear
Got my eardrums wishing they couldn't even hear
You tell the lies but I see right through it
You've done a lot of dirty work but I cut straight through it White Noise Turn it up, manipulation
sound
Got my information but I'm living underground
My friends don't wanna hear it cause they not on the level
They've got alot of spirit and they know you are the devil
White Noise, White Noise, White Noise
oooooooooh All you are is white noise to me
To me, To me
oooooooooh All you are is white noise to me I won't speak, talking of a static
White noise white noise, response automatic
And I've had it with you yeah you
I'm in a panic put some music in the room
White boys popping their heads in sync
Got the girls on the dancefloor skanking to the beat
We're trying out a voice that they call authority
we're interrupting from maturity White Noise, White Noise, White Noise
oooooooooh All you are is white noise to me
To me, To me
oooooooooh All you are is white noise to me
Turn the dial and listen for a while
Taking over frequenties from miles and miles so
Turn the dial and listen for a while
We're taking over frequenties from miles and miles White Noise, White Noise, White Noise
oooooooooh All you are is white noise to me
To me, To me
oooooooooh All you are is white noise to me (I won't listen, static in my ear)
(Got my eardrums wishing they couldn't even hear)
(You tell the lies but I see right through it)
All you are is white noise to me!
