

# Red Lights

## Delphic

Maybe this, made for two, maybe you  
But I can't put a Fy's apple pie in my mind  
With distractions that happen  
Refraction that matters is clear  
Disappear in an empty room Oh, I wanted to be next to you  
When it all falls through  
When your world implodes  
When your memory goes  
When it all takes its toll  
I'll put my heart into your hands I wouldn't stop the red lights  
I wouldn't come up for air  
I wouldn't stop the red lights  
I wouldn't even have to think twice  
I wouldn't stop the red lights  
I wouldn't come up for air  
I wouldn't stop the red lights  
Red light, red light, red light  
Red light, [unverified] red lights You can try if you like  
Terrorizing my mind  
What you see you at night  
While I can't leave behind  
With a futile gesture A loaded question  
I know must be hope  
A romantic notion  
A self not enough Circumstances dictate as a whim [unverified]  
As a fire that still burns inside  
If you were to call  
I'd risk a second broken heart for you  
I wouldn't stop the red lights  
I wouldn't come up for air  
I wouldn't stop the red lights  
I wouldn't even have to think twice I wouldn't stop the red lights  
I wouldn't come up for air  
I wouldn't stop the red lights  
Red light, red light, red light  
Red light [unverified] red lights I wouldn't stop the red lights  
I wouldn't come up for air  
I wouldn't stop the red lights  
I wouldn't stop the red lights I wouldn't stop the red lights  
I wouldn't stop the red lights  
I wouldn't stop the red lights
