

# Thank You Lord

Tamar Braxton

I gave my hearts many times before  
I've been used, and right too  
I thought it'd never change  
Till I got on my knees and I prayed  
Crying please take this pain away  
Oh lord I need you in my life  
You came and made everything right  
And I think where would I be if I didn't have you by my  
side

How I'm so blessed  
And all I can say is thank you lord  
Thank you lord thank you lord  
Today shines, sadness I've been through it all  
I've lost my friends, thinking they would always be here when I call  
So I get on my knees and I prayed  
Crying please take this pain away  
Cause lord I need you in my life  
You came and you made everything right  
And I say where would I be if I didn't have you by my  
side

How I'm so blessed  
And all I can say is thank you for all of your blessings  
You keeping me safe on your arms  
Even with I know I don't deserve it  
You're always there to catch me when I fall  
Where would I be if I didn't have you by my side  
How I'm so blessed  
And all I can say is thank you lord  
And all I can say is thank you lord
