

Superlove

Lenny Kravitz

I want you, all of you
Can we break through
And start a new
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove We both know the way to go
Let's take a chance
It's our last dance
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove
I wanna be inside your superlove
I need the spirit with the sexual
I wanna be inside your superlove
I want your superlove
