

Just Getting Started

Big Time Rush

Right now, it feels like it's the encore
Like we just lived through one more
We just set foot in the door I know, you think you've seen the whole show
But this is just the intro
It's not goodbye, it's hello, here we go The night (the night) is young (is young)
And we're just getting started
We're just getting started
The best (the best) is yet (is yet) to come
And we're just getting started now
Woah, woah, oh oh woah
And we're just getting started now
Woah, woah, oh oh woah
And we're just getting started now
Right now, it feels like it's the last page
But we're just warming up the stage
I've found the key, unlocked the cage (unlocking, locking) I know, it's feeling like the sunrise
But it isn't even midnight
Oh girl we got a lot of time, lot of time, I'll make you mine, oh The night (the night) is young (is
young)
And we're just getting started
We're just getting started
The best (the best) is yet (is yet) to come
And we're just getting started now
(don't come me down, you come me in)
Woah
And we're just getting started now
(Time to set it off, so let's begin)
Woah
And we're just getting started now
I, I, I know that I just met ya
Feels like it's been forever But it's only getting better, and better, and better, and oh (oh)
The night (the night) is young (is young)
And we're just getting started
We're just getting started
The best (the best) is yet (is yet) to come
And we're just getting started now
(don't come me down, you come me in)
Woah
And we're just getting started now
(Time to set it off, so let's begin)
Woah
And we're just getting started now

(don't come me down, you come me in)

Woah

And we're just getting started now

(don't come me down, you come me in)

Woah

And we're just getting started now
