

Funeral for Yesterday

Kittie

Funeral For Yesterday You're growing cold

The end is near

I know it's sad

It's true my dear

Whats one more blow to seal this fate?

Whats one more nail? It's getting late

So take the fall[Chorus:]

Keep our hearts from breaking

Beating still

Six feet deep

A funeral for all the love we've lost

We'll bury yesterday

Things I've never said before

Always six feet deep

Buried alive

I soon grow weak

One last embrace

Then never speak

Death warrant signed

Lying in sleep

This coffin is lined

It's never to late

To take the fall[Chorus:]

Keep our hearts from breaking

Beating still

Six feet deep

A funeral for all the love we've lost

We'll bury yesterday

Things I've never said before

Always six feet deep

Oooh, you're growing cold

Oooh, you're growing cold[Chorus:]

Keep our hearts from breaking

Beating still

Six feet deep

A funeral for all the love we've lost

We'll bury yesterday

Things I've never said before

Always six feet deep[Chorus:]

Keep our hearts from breaking

Beating still

Six feet deep

A funeral for all the love we've lost
We'll bury yesterday
Things I've never said before
Always six feet deep
