

Funeral for Yesterday

Kittie

Funeral For Yesterday You're growing cold
The end is near
I know it's sad
It's true my dear
Whats one more blow to seal this fate?
Whats one more nail? It's getting late
So take the fall[Chorus:]
Keep our hearts from breaking
Beating still
Six feet deep
A funeral for all the love we've lost
We'll bury yesterday
Things I've never said before
Always six feet deep
Buried alive
I soon grow weak
One last embrace
Then never speak
Death warrant signed
Lying in sleep
This coffin is lined
It's never to late
To take the fall[Chorus:]
Keep our hearts from breaking
Beating still
Six feet deep
A funeral for all the love we've lost
We'll bury yesterday
Things I've never said before
Always six feet deep
Oooh, you're growing cold
Oooh, you're growing cold[Chorus:]
Keep our hearts from breaking
Beating still
Six feet deep
A funeral for all the love we've lost
We'll bury yesterday
Things I've never said before
Always six feet deep[Chorus:]
Keep our hearts from breaking
Beating still
Six feet deep

A funeral for all the love we've lost
We'll bury yesterday
Things I've never said before
Always six feet deep
