

Brightest Lights (feat. POLIÇA)

Lane 8

I'd walk through fire
To be closer to you
I will never be whole
Till I've carved it in stone
Your heart I hold
Away from trouble
That old heartache brings
Oh none of it matters
It's all gonna scatter
And you're all I need The feeling I'm feeling
I know it's a reason
I want it the rest of our lives
The feeling I'm feeling
I know it's a reason
I want it the rest of our lives
We're the brightest light
Stars will gather round
Just to be with you
Love's the loudest sound All the world's just noise
We will drown it out
When you're holding me
Love will scream out loud Don't hold to reason
When the feeling's this strong
Every piece of me shatters
Searching for matter
All the webs are gone The feeling I'm feeling
I know it's a reason
I want it the rest of our lives
The feeling I'm feeling
I know it's a reason
I want it the rest of our lives
We're the brightest light
Stars will gather round
Just to be with you
Love's the loudest sound All the world's just noise
We will drown it out
When you're holding me
Love will scream out loud
