

No Shows

Gerard Way

Been weeks I been living and your smiles are giving me all types of treble
Weak knees I been given and those nights are making me star-struck and metal Stay free
Don't go
Cuz we don't need no Try to be living as your vice and can you be my type?
Cuz we need to be given a good life and can I be your type of metal? Stay free
Don't go
Cuz we don't need no shows
We don't need no shows
We don't need no Pay for the devil a plug to a pedal I'm your type
Weak knees from the level I'm sick from the treble I'm your type of metal Weak knees don't go
Cuz we don't need no shows She's sweet as battery, man I got nothin
You kiss an enemy's hands, I got nothing
We got an animal band and that's something
It's not love if it's just fucking
We don't need no shows We don't need no shows We don't need no shows We don't need no
shows
