

# Say My Name (feat. Yasmin)

## Huxley

Can't deny you caught my eye  
Had me moving left to right  
I got this feeling deep inside  
Like I wanna do something  
I know I could be wrong  
See this pull is just too strong  
I can't resist, my gaze is faced on you and I  
I wanna get close, closer  
Back, shoulder  
Hands, over, all up on ya  
Heart is beating, won't and needing  
You and me, yeah  
Let's get comfortable, 'cause I want to get freaky with you  
Anything you want, just do what I do  
Can you turn me on, I'd come running to you  
Everytime you say my name  
My name  
I wanna get  
I wanna get  
I wanna get freaky with you, you  
I wanna get  
I wanna get  
I wanna get freaky with you, you  
You got me in a place, where I can't even concentrate  
You make me run, you make me wait  
Don't you know I love it  
Man, you got me having thoughts about my body next to yours  
I can't resist, you put a spell on me  
Got me thinking naughty things  
It gets deeper  
Hot-like fever  
Feel that creeper  
On me, yeah on me, baby  
It's beating, won't and needing  
You and me, yeah  
Let's get comfortable, 'cause I want to get freaky with you  
Anything you want, just do what I do  
Can you turn me on, I'd come running to you  
Every time you say my name, my name  
Let's get comfortable, 'cause I want to get freaky with you  
Anything you want, just do what I do  
Can you turn me on, I'd come running to you

Every time you say my name, my name  
Everytime you say my name  
I wanna get, I wanna get  
I wanna get freaky with you, you  
I wanna get, I wanna get  
I wanna get freaky with you  
Every time (oh yeah)  
Every time (oh yeah)  
Every time  
Everytime you say my name  
Everytime  
Everytime  
Everytime you say my name  
Do what I want (anything you want)  
Everytime you say my name
